

# Aviation

Protect your assets. Build your business.

**Established in 1999, Allshelter are Australian manufacturers of relocatable and permanent fabric and hard top structures, that provide high quality weather protection to Australia and across the world.**

Whether it's protecting elite military fighters, housing aviation aircraft used for accessing remote mines or supporting helicopters transporting offshore oil rigs, Allshelter provides a versatile range of clear-span aircraft hangars and aviation shade structures.

Allshelter aviation shelters offer a simple and affordable way for commercial aeroplane and helicopter owners to establish their own aircraft hangars, giving you complete control of your fleet. Allshelter fabric shelters are made to withstand the most extreme conditions, providing you with the comfort of knowing that all of your aviation assets are protected.
